A Smarter way to bridge the gap in online learning

Unlock the potential of remote learning with innovative technologies

In the new normal, schools around the world are embracing hybrid learning models by leveraging digital technologies. A new education study conducted by YouGov and Terapinn, commissioned by Lenovo and Microsoft, shows enormous opportunities in e-learning, but challenges such as distraction and social isolation continue to hamper the effectiveness of online education. Read on for key takeaways from the study.

Empowering a new generation of learners and educators

Both students and educators see eliminating the need to commute as a key advantage of online learning.

- **Students**
  - 81% increased their use of technology during the past year
  - 63% listed increased accessibility
  - 49% increased flexibility
  - 62% increased convenience

- **Educators**
  - 95% increased their use of technology during the past year
  - 64% listed increased accessibility
  - 50% increased flexibility
  - 67% increased convenience

Most students and educators use a laptop or tablet for learning and teaching, but few have explored the full suite of learning solutions.

- **Students**
  - 38% use clouds-based document sharing
  - 20% use video conferencing apps
  - 14% use remote access files
  - 16% use learning management systems

- **Educators**
  - 76% use clouds-based document sharing
  - 56% use video conferencing apps
  - 36% use remote access files
  - 66% use learning management systems

To fully reap the benefits of remote learning, students and educators need innovative solutions that can create a collaborative and personalized learning experience, while providing convenience and reliability.

**Distraction, engagement and isolation remain barriers to online learning.**

- 54% said that distractions at home impact their ability to focus
- 46% said they have less motivation to attend online classes at home
- 48% said they have less access to socialization and interaction with teachers/classmates
- 41% said they have difficulty in meeting people
- 75% said increased social isolation is a barrier to their online learning experience

**Engineer a Smarter classroom with Lenovo solutions**

- **ThinkPad L13 Yoga (Gen 2)**
  - Possesses 11th Gen Intel® Core™ i7 processors and Windows 10 Pro
  - Lightweight design
  - Enhanced portability
  - Designed to help students learn, engage, and collaborate at new levels

- **ThinkSmart Hub**
  - Built on Intel vPro® platform
  - Supports Microsoft Teams sessions
  - Part of Lenovo's suite of Hybrid Classroom solutions aimed at enriching the remote learning experience of students and educators alike

**Lenovo partners with leading industry leaders to develop innovative products and services that can address the limitations of digital transformation in the education sector.**

- **Edvision Program**
  - Empowers educators with smarter end-to-end solutions, supported by Intel vPro® platform and Windows 10 Pro
  - Helps them unlock the limitless potential of learning.
